MICROSOFT IN EDUCATION TRANSFORMATION FRAMEWORK

٣/٦

الوسائل الدّاعمة والتّجهيزات الصّفيّة والمدرسيّة
أ. رولا شهاب: مديرة تنفيذيّة في شركة ميكروسوفت

Education Transformation Framework

The Microsoft Education Transformation Framework helps fast track system-wide transformation by summarizing decades of quality research. It includes a library of supporting materials for the ten critical components of transformation, each underpinned by an executive summary and an academic whitepaper detailing global evidence. This provides a short-cut to best practice, speeding up transformation and avoiding the mistakes of the past. Microsoft also offers technology architectures and collaborative workshops to suit your needs.
